

A large jellyfish with a white, textured bell and long, thin, pinkish tentacles is swimming in clear blue water. The jellyfish is positioned in the center-right of the frame, moving towards the left. The background is a deep blue, slightly rippled water surface.

I can draw the  
next shapes in a  
pattern.

**I can divide a group into 2  
equal groups. (I can find  $\frac{1}{2}$   
of a number)**
